FEDERAL AUTHORITIES ON TRAIL OF CHINESE MURDERERS AND SMUGGLERS.

Wm. J. FLYNN. COPYRIGHT BY AMERICAN PRESS ASSOCIATION.

NEW YORK, Feb. 3.—Acting in conjunction with the federal authorities, Second Deputy Police Commissioner William Flynn has begun an investigation which it is believed will lead to the apprehension of the murderer of Elsie Sigel, granddaughter of General Sigel, and the disclosure of the secrets of an organized band of Chinese smugglers whose operations have been of such magnitude as to alarm the customs officials. Discoveries made by customs inspectors in a recent raid on a west side opium selling den involve certain police officials who are said to have aided in the protection of Chinese in this city who have done a large business in running fellow countrymen into the United States by way of Canada. Not only has the general scheme of a Chinese syndicate formed for the purpose of defying the Chinese exclusion laws been uncovered, but the names of several of the ringleaders are in the hands of the federal authorities as well as a list of the police officials who are said to have been working with them. When it was learned by the customs house officials and by Deputy Police Commissioner Flynn that these facts

had become known they made a concerted, but ineffectual effort to prevent further details from reaching the public. United States District Attorney Henry A. Wise at first refused to admit he knew anything about the matter, but finally said the incriminating evidence was in his office.

## SERIOUS CHARGES AGAINST WOMAN

SEATTLE, Wash., Feb. 3.—Mrs. Minnie R. Williams, divorced wife of John R. Williams, deceased, an Alaska mining man, was brought from the county jail as defendant in a suit instituted by Mrs. Luella Roat for \$25,000 for alienating the affections of her husband, W. E. Roat, to whom she was married at Glenwood Springs, Colo., in 1901. John Williams was killed in Alaska in 1909 by a snowslide. His wife had secretly obtained a divorce from him a year previously and he lived with her after the divorce, in ignorance of it, according to the four brothers and sister of Williams, all of whom live in Tillamook, Oregon. The brothers and sister contested the alleged will of Williams, filed by the divorced wife, which gave him the \$25,000 estate to her, and last night the jury found against the woman. As soon as the verdict was returned, Judge Wilson R. Gay ordered the arrest of Mrs. Williams and her witnesses to the alleged will, Mr. and Mrs. Fred Graham, charging them with perjury and forgery. Mrs. Williams has been thrice married.

## CITY DAM BLOWN UP TO SAVE CITY

POCATELLO, Idaho, Feb. 3.—To save this city from a flood, which threatened to result from the breaking of the west levee of the city dam, the authorities today ordered the west wall of the great lake dynamited. Lack of power has caused a closing of the schools and in the absence of arc lights in the streets lanterns and candles will be used for illumination. At Pocatello, Idaho, the Portneuf river is at flood tide. Traffic on the Oregon flood tide. In this section was seriously hampered for three days, but the outlook today was more promising. Bridgemen say trains will be started in both directions from Pocatello tomorrow. Six inches of snow fell in Pocatello and vicinity last night and today a hard gale is blowing.

## RAILWAY READY TO SHIP CATTLE

SHERIDAN, Wyoming, Feb. 3.—Upon advice received from Vice President Byram, of the Chicago, Burlington & Quincy railway, with headquarters in Chicago, and posted in bulletin form by F. G. Robbins, division superintendent, arrangements are being made all along the system for handling thousands of cattle to be shipped soon from quarantined districts of Texas through to Seattle. Cattle trains will be given right of way and rushed to destination as fast as possible. Special improvised pens are being constructed for feeding and watering along the route. Instructions for disinfecting cars, chutes and pens are specific.

## AGED PRELATE'S CONDITION GOOD

PHILADELPHIA, Feb. 3.—The vitality shown by the Most Rev. Patrick J. Ryan has completely puzzled his physicians. Notwithstanding that the aged prelate probably would not live through the night, he awoke today refreshed by several hours of sound sleeping. His condition today was more satisfactory than it has been for nearly a

week. Besides receiving a dozen callers, he told an amusing story on Cardinal Gibbons and signed his name to an important document which had been brought to the cathedral residence by counsel of several Catholic charities.

When Father Kavanaugh, the archbishop's private secretary, chanted mass, the distinguished patient responded and later he joined with Father Kavanaugh in singing a hymn.

He paid close attention to the reading of several letters and was pleased when his secretary read a note from President Taft.

Dr. J. Ryan Devereux, of Washington, the archbishop's nephew, who is assisting the other physicians, said in commenting on his condition:

"It is the most marvelous instance of vitality I have ever come in contact with."

## MARINE DOCTORS TO AID CHINESE

WASHINGTON, Feb. 3.—Plans have been made to put the public health and marine hospital service into the field in China to stamp out the plague. The Chinese government requests it. It was learned today that informal exchanges on the seriousness of the situation have been made between representatives of some of the European powers and the possibility has been discovered of having the marine hospital service join with the army medical forces of the European nations having spheres of influence in China.

The situation in China is not regarded as offering any more difficulties than were met and overcome when the service cleaned Cuba and stamped yellow fever out of New Orleans.

## FAVORS OIL AND GAS LAND BILL

WASHINGTON, Feb. 3.—The bill to protect the locators in good faith of oil and gas lands who shall have effected an actual discovery of oil or gas on public lands, was ordered favorably reported to the house by the public lands committee today.

Mr. Robinson of Arkansas secured the adoption of an amendment providing that where the discovery of oil was made after the transfer of the original entryman or locator, the grantee can only take twenty acres and not 160.

The bill is an outgrowth of protests against the decision of the interior department as to the transfer of interests in claims. Under this ruling, it is said, millions of dollars worth of mining property has been held up.

## LIFE IN PULLMAN PROVES TO MUCH

SALT LAKE, Feb. 3.—Worsted in his endurance contest with the weather, Nevada flooder Joseph Himes, of Goldfield today folded up his baggage and silently stole away from the Pullman car he had occupied for the last five days. As he had a ticket calling for transportation from Joplin, Mo., to San Francisco, via the San Pedro, Los Angeles, and Salt Lake, Mr. Himes at first refused to be transferred to the Southern Pacific and announced that he would wait in the Pullman if it took all summer. The prospect of lodging for another week or two in the sonorous railroad yards was too much for him, however, and he went westward over the Southern Pacific.

TO ARRANGE AN ARMISTICE.

WASHINGTON, Feb. 3.—Through the naval officers now in Honduras waters, the United States government is trying to arrange an armistice between the government forces and the rebels in Honduras, with a view to securing peaceable adjustment of the pending difficulties.

## IS KILLED BY A LION

Brother of Sir Edward Gray Set Upon by a Large Beast

Nairobi, British East Africa, Feb. 4.—George Grey, a brother of Sir Edward Grey, the British minister of foreign affairs, died during the night at the hospital to which he was removed following his encounter with a lion last Tuesday.

Mr. Grey, with several companions, was stalking lions when he separated from the others and was suddenly set upon by a large beast. He was badly wounded before his friends could come to his rescue.

## FLOOD LOSS NEAR BRIGHAM CITY

Commissioners Find Many Bridges Down and Roads in Deploable State.

Brigham City, Feb. 3.—The county commissioners have been kept busy since Tuesday morning touring the county to ascertain the amount of damages done to roads and bridges since the floods of Tuesday. The commissioners spent Wednesday in Box Elder canyon, where they found the roads and bridges in a badly demolished condition. They were compelled to make the trip on foot, as there are but few stretches of road through the entire canyon that are passable.

According to the commissioners, it is impossible to estimate the cost to repair the canyon before an engineer has passed on the matter, but it will require a sum which will run into the thousands. The work will be done, however, and the roads will be better than ever. A great deal of concrete work will be necessary wherever the creek turns.

Two days were spent along the Malad river. Here the county was the heaviest loser. Every bridge between Evans and Plymouth, a distance of thirty miles, was washed out, and these bridges were all steel except one or two. The steel bridges were all new and costly, having been erected within the last two or three years. It seems that everything is safe along Bear river, for the canals took the surplus water.

Another serious washout occurred on the Hammond canal, better known as the East Side canal. The washouts occurred between Collinston and Beaver Dam, where the canal crosses several ravines, making it necessary to maintain several thousand feet of trestle flume.

WEEKS SEPARATION FROM HIS TWO WIVES

Salt Lake, Feb. 4.—Max Gussaroff became pretty tired of married life when he recently discovered that he was the husband of two women, judging from divorce complaints which he filed against both of his wives late last week. Gussaroff desired a divorce from Rachel Gussaroff on the grounds that she deserted him, leaving him with six children, and from Kate Gussaroff, he desired a separation on the grounds that she married her, not knowing that Rachel Gussaroff was living, according to the complaints.

After being reliably informed, according to the complaint, that Rachel had died, Gussaroff married his second wife, July 20, 1909, in order that his children should be taken care of. Recently, however, he has discovered that Rachel is still living, and from her he desires a divorce on the grounds of desertion. He also asks for custody of the children. He asks for divorce from the other wife also on the grounds that when he married her he did so not knowing that his first wife was living.

ROCKEFELLER LOSES A HOUSE BY FIRE.

Tarrytown, N. Y., Feb. 4.—John D. Rockefeller lost a house by fire here late yesterday. It was occupied by one of the employees of the Rockefeller estate and was valued at \$5,000. A defective flue in the chimney started the fire and the whole roof was ablaze before anyone knew of it. When the Rockefeller brigade, assisted by a local company, arrived, the house was so far gone that it was decided to let it burn and the firemen busied themselves saving some of the contents.

Mr. Rockefeller has been unfortunate with fires. His home on the hill burned several years ago and he lost several houses on his estate since that time.

CLAIMS NEUTRALITY HAS BEEN VIOLATED BY REBELS

Phoenix, Ariz., Feb. 4.—Upon request of Governor Sloan, Attorney General Wickersham has telegraphed instructions from Washington to United States Marshal Overlock to cooperate with the United States troops in checking alleged violations of the neutrality laws by Mexican insurgents.

Governor Sloan had acted upon a complaint from General Torres, Mexican commander of the department of Sonora, that an armed band of forty insurgents had been violating the American neutrality laws by openly using United States territory as a base of operations and supplies.

BUGGY RIDE WAS PART OF A CRIME.

New York, Feb. 4.—Because Charles M. Meeker of this city, took a buggy ride across the New Mexico line to Texline, Texas, although he probably was not aware at the time that he was leaving New Mexico, he must go to the Lone Star state to answer a charge of having defrauded George Mattingly.

The appellate division of the supreme court of New York state has so decided after entertaining Meeker's application to reverse the findings of the lower court which ordered his extradition.

Meeker based his fight against extradition on the contention that he was not in Texas at the time he alleged fraud was committed.

## SEVEN GREATEST DESIRES OF LIFE

The result of a canvass among a large number of the members and attendants of the First Presbyterian church, as to the Seven Greatest Desires of Life, has revealed a list of longings strikingly in accord with the desires mentioned by the writers of the past. Some of the religious periodicals have been benighted by the lack of deep sincerity of spiritual purpose among the church attendants of today. This canvass, while revealing some of the pathos of life, has revealed a wondrous trend towards the permanent and abiding in character and worth. All of which speaks much for a so-called western town.

The Sunday night theme in the evening series upon "The Seven Greatest Desires of Life," will be upon the "Strength and the Weakness." Dr. Saunders, Miss Corn and Mrs. C. H. Stevens will sing.

## CRONIES ELECT THEIR OFFICERS

The Scottish Cronies met last evening and elected the following officers to serve during the ensuing year:

William Moyes, Honored Chief Cronie.

Frank Carr, Vice Chief Cronie. Joseph M. Warner, Secretary. Angus McPhee, Treasurer. Harry White, Sentinel.

The secretary submitted a most favorable report on Burns' anniversary and other important business was transacted.

FOUGHT AT 2 A. M.

GREGORY, S. D., Feb. 3.—"Dumpty" West, of Gregory, and Bill Steward, of Wayne, Neb., fought ten rounds to a draw at 2 o'clock this morning, near here.

The contest had been scheduled for last night, but the fighters were arrested and the bout declared off. Later they eluded the officers and met outside the town.

PRINCETON WANTS WHEELER.

OAKLAND, Cal., Feb. 3.—Through his secretary, Farnum Griffith, President Benjamin Ide Wheeler, of the University of California, declared today that he had received an offer to become president of the Princeton university to succeed Woodrow Wilson.

Los Angeles, Cal., Feb. 4.—A hypothetical question, 40,000 words in length, was read yesterday to the first alienist witness in the trial of Frank M. Bell, the wealthy Texan accused of having murdered Attorney O. P. Widaman at Artesia last July. The trial already has consumed three weeks, but the expert testimony presented to a witness.

The trial already has consumed three weeks, but the expert testimony presented to a witness. Moore was the first alienist to be placed on the stand. He was confronted with the lengthy query.

It required three hours to read the question to Dr. Moore. When it was finished, the presiding judge ordered the question should be printed and copies furnished the jury and witnesses.

**ANTI-HOOKERS-UP SOCIETY FORMED**  
Greeley, Colo., Feb. 4.—The worm has turned. Greeley men have organized the "anti-hookers-up society," the chief rule of which is the imposing of a \$5 fine on any member who assists his wife in donning a frock on which there are more than five hooks. At the first meeting a consolation prize was awarded the member who held the long distance "hooking up" record. It was won by a man whose wife's star gown had 105 hooks.

**HYPOTHETICAL QUESTION 40,000 WORDS LONG**

Los Angeles, Cal., Feb. 4.—A hypothetical question, 40,000 words in length, was read yesterday to the first alienist witness in the trial of Frank M. **WHILE THE COST OF LIVING**  
has been going up during the last twenty years, the cost of **ELECTRIC LIGHTING** has been cut two ways.  
Consumers purchase light but they pay for electric energy, the unit of electric energy being the watt. The rates for electric energy have been reduced substantially, and at the same time **GREAT LIGHT** per unit of energy has been made possible. In other words, the **LIGHTING VALUE** of the **WATT** has been increased and the **COST** of the **WATT** has been decreased. The modern tungsten lamp gives five times the candlepower per watt as did the **FIRST** incandescent lamp in 1882.  
The tungsten lamp itself costs more than the carbon incandescent, but it is worth much more and is being made stronger and more efficient all the time. At first all tungsten lamps were extremely fragile. Now they are almost as enduring under shocks and vibrations as the old style filament lamps. We are selling them at reduced prices.
